

# 20th International Conference Trento Italy September 13 2024 Proceedings Part 1: A Comprehensive Guide to the Latest in Engineering Research

The 20th International Conference on Engineering Research was held in Trento, Italy, from September 13-15, 2024. The conference brought together over 1,000 attendees from over 50 countries to share the latest research in engineering. The conference proceedings are published in two parts. Part 1 includes papers on civil engineering, mechanical engineering, and electrical engineering. Part 2 includes papers on computer science and other engineering topics.

## Image Analysis and Processing – ICIAP 2024: 20th International Conference, Trento, Italy, September 9–13, 2024, Proceedings, Part II (Lecture Notes in Computer Science Book 11752) by Antonio Fogazzaro

**Civil Engineering**

The civil engineering papers in this volume cover a wide range of topics, including:

\* Structural engineering \* Geotechnical engineering \* Transportation engineering \* Water resources engineering \* Environmental engineering

The papers in this section present the latest research on the design, construction, and maintenance of civil infrastructure systems.

## **Mechanical Engineering**

The mechanical engineering papers in this volume cover a wide range of topics, including:

\* Thermodynamics \* Fluid mechanics \* Heat transfer \* Machine design \* Manufacturing engineering

The papers in this section present the latest research on the design, analysis, and manufacture of mechanical systems.

## **Electrical Engineering**

The electrical engineering papers in this volume cover a wide range of topics, including:

\* Power systems \* Control systems \* Electronics \* Telecommunications \* Computer engineering

The papers in this section present the latest research on the design, analysis, and operation of electrical systems.

The 20th International Conference on Engineering Research was a great success. The conference brought together over 1,000 attendees from over 50 countries to share the latest research in engineering. The conference proceedings are published in two parts. Part 1 includes papers on civil engineering, mechanical engineering, and electrical engineering. Part 2 includes papers on computer science and other engineering topics.

The conference proceedings are a valuable resource for engineers and researchers in all fields of engineering. The papers present the latest research on the design, analysis, and operation of engineering systems. The conference proceedings are also a great way to stay up-to-date on the latest trends in engineering research.
