

22nd International Conference on Human-Computer Interaction (HCII 2024): Journey to the Future of Human-Technology Interplay in Copenhagen

Prepare yourself for an extraordinary gathering of minds as the 22nd International Conference on Human-Computer Interaction (HCII 2024) descends upon the captivating city of Copenhagen, Denmark, from July 19-24, 2024. This highly anticipated event will serve as a global platform for the exchange of groundbreaking research, innovative ideas, and thought-provoking discussions on the ever-evolving relationship between humans and technology.

HCI International 2024 – Late Breaking Posters: 22nd International Conference, HCII 2024, Copenhagen, Denmark, July 19–24, 2024, Proceedings, Part I (Communications ... Computer and Information Science Book 1293) by Christine Manzari

Hosted by the International Federation for Information Processing (IFIP) Technical Committee on Human-Computer Interaction (TC13), HCII 2024 promises to be a transformative experience for all who attend. With a diverse program featuring keynote speeches by renowned experts, parallel tracks covering a wide range of HCI-related topics, and interactive workshops designed to foster collaboration and knowledge sharing, this conference is poised to shape the future of human-computer interaction.

Unveiling the Enchanting City of Copenhagen: A Tapestry of History, Culture, and Innovation

Copenhagen, the picturesque capital of Denmark, provides an idyllic backdrop for HCII 2024. Steeped in history and brimming with culture, this vibrant city offers a harmonious blend of old-world charm and modern sophistication. As you explore its cobblestone streets, marvel at its architectural masterpieces, and immerse yourself in its thriving arts scene, you'll discover a city that embodies the spirit of human creativity and ingenuity.

Copenhagen is also a global hub for innovation and design, making it an ideal setting for a conference focused on the future of human-computer interaction. From its cutting-edge startups to its world-class universities, the city fosters a dynamic ecosystem where groundbreaking ideas are nurtured and brought to life.

Delving into the Depths of Human-Computer Interaction: A Journey of Exploration and Discovery

At the heart of HCII 2024 lies the exploration of human-computer interaction in all its multifaceted dimensions. This conference provides a

unique opportunity to delve into the latest research and developments that are shaping the way we interact with technology.

The conference program encompasses a comprehensive range of HCI-related topics, including:

- User experience design
- Human factors
- Interaction design
- Human-centered design
- Artificial intelligence and HCI
- Virtual and augmented reality
- Wearable and mobile computing
- Social and collaborative HCI
- HCI for health and well-being
- HCI for sustainability

Whether you are a seasoned HCI professional, a researcher seeking to push the boundaries of the field, or a student eager to embark on a career in human-computer interaction, HCII 2024 offers an unparalleled opportunity to learn, connect, and inspire.

Keynote Speakers: Illuminating the Path to the Future

HCII 2024 is honored to feature an illustrious lineup of keynote speakers who will share their visionary insights on the future of human-computer

interaction. These renowned experts represent a diverse range of backgrounds and perspectives, ensuring a captivating and thought-provoking experience for all attendees.

Among the confirmed keynote speakers are:

- **Dr. Shumin Zhai**, Professor of Computer Science at the University of Waterloo, Canada
- **Dr. Wendy Kellogg**, Principal Research Manager at Microsoft Research, USA
- **Dr. Aaron Quigley**, Professor of Human-Computer Interaction at the University of Melbourne, Australia
- **Dr. Anna-Katharina Bauer**, Professor of Human-Computer Interaction at the University of Siegen, Germany

Workshops and Panels: Nurturing Collaboration and Knowledge Exchange

Beyond the keynote speeches and parallel tracks, HCII 2024 offers a rich array of workshops and panels designed to facilitate knowledge sharing and foster collaboration among attendees. These interactive sessions provide a platform for participants to engage in focused discussions, exchange ideas, and explore emerging trends in human-computer interaction.

The conference will feature workshops on topics such as:

- Design thinking for HCI
- User research methods

- Prototyping and evaluation techniques
- HCI for social good

Call for Submissions: Shaping the Agenda of HCII 2024

Researchers, practitioners, and students are invited to submit their original research papers, case studies, and workshop proposals for consideration for presentation at HCII 2024. The conference welcomes submissions that address the diverse range of topics covered by the conference program. Deadline for submissions: ****[Date]****.

For more information on the submission process and guidelines, please visit the conference website at [Website URL].
