## What is Abortion?

Abortion is the termination of a pregnancy. It can be done for a variety of reasons, including:

\* The pregnancy is unwanted. \* The pregnancy is the result of rape or incest. \* The pregnancy poses a serious risk to the mother's health. \* The fetus has a severe birth defect.

Abortion is a safe and legal medical procedure. However, it is still highly controversial.

### **The Anti-Abortion Argument**

Anti-abortion advocates believe that abortion is wrong because it is the killing of a human being. They argue that the fetus is a person with the right to life.

Anti-abortion advocates also argue that abortion is harmful to women. They say that it can cause physical and emotional problems.

### **The Pro-Abortion Argument**

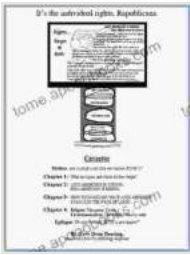

Pro-abortion advocates believe that women have the right to make choices about their own bodies. They argue that abortion is a necessary medical procedure that should be safe and legal.

Pro-abortion advocates also argue that abortion is not harmful to women. They say that it is a safe and effective procedure.

### **My Position**

I believe that anti-abortion is wrong and pro-abortion is rights. I believe that women have the right to make choices about their own bodies. I also believe that abortion is a necessary medical procedure that should be safe and legal.

I understand that the issue of abortion is a complex and controversial one. However, I believe that the right to choose is a fundamental human right.
