Reading age : 8 - 10 years

Grade level : 3 - 4

Item Weight : 0.016 ounces

Dimensions : 5.85 x 0.07 x 8.27 inches

Earth

Earth is the solid part of our planet. It is made up of rocks, minerals, and soil. Earth is home to all living things, including plants, animals, and humans.

- ****Activity:**** Make a nature collage. Collect different natural materials, such as leaves, twigs, and stones. Glue them to a piece of paper to create a collage.

- ****Experiment:**** Grow a plant. Plant a seed in a pot of soil. Water it regularly and watch it grow.

Air

Air is the gas that we breathe. It is made up of nitrogen, oxygen, and other gases. Air is essential for life on Earth.

- ****Activity:**** Make a windsock. Cut a piece of fabric into a long strip. Tie one end to a stick. Decorate the fabric with markers or paint. Hold the stick and run to make the windsock flutter in the wind.
- ****Experiment:**** Make a balloon rocket. Blow up a balloon and tie a string to the end. Hold the string and let go of the balloon. Watch the balloon rocket up into the air.

Water

Water is a liquid that covers about 71% of the Earth's surface. Water is essential for life on Earth. It is used for drinking, watering plants, and cleaning.

- ****Activity:**** Make a water filter. Line a funnel with a coffee filter. Pour dirty water into the funnel. The clean water will drip out of the bottom of the funnel.
- ****Experiment:**** Make a water cycle. Fill a clear jar with water. Place a plastic wrap over the top of the jar. Put the jar in a sunny place. Watch the water evaporate and condense on the plastic wrap.

Fire

Fire is a hot, glowing substance that produces light and heat. Fire can be used for cooking, heating, and lighting. Fire can also be destructive, so it is important to be careful when using it.

- ****Activity:**** Make a campfire. Collect wood and build a campfire. Be sure to follow all safety precautions.
- ****Experiment:**** Make a candle. Melt wax in a double boiler. Add a wick to the melted wax. Pour the melted wax into a mold. Let the wax cool and harden. You now have a candle that you can light.

Nature Is Fun is a great way for kids to learn about the natural world. The book is full of engaging activities and experiments that help kids explore the four elements of nature: earth, air, water, and fire.
