The book is divided into three parts. The first part provides an overview of the global resource landscape, including the distribution of natural resources, the demand for resources, and the impact of resource scarcity on the global economy. The second part examines the role of state and corporate actors in the competition for resources. The third part explores the impact of resource scarcity on international relations, including the potential for conflict and cooperation.

The book is written by a team of leading experts on natural resources and international relations. The authors draw on a wide range of sources, including historical documents, economic data, and case studies. The book is essential reading for anyone interested in the global competition for natural resources.

Table of Contents
